

TRESK-1 ion channel cell line

Product Information

Catalogue ref: SB-HEK-TRESK

Species: Human

Host cell : HEK

Quantity: 2 x 1ml (1x10⁶ cells/ml)

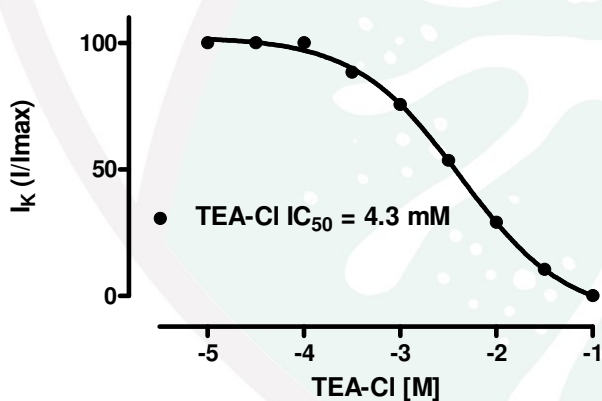

Figure 1: Concentration-dependent effects of TEA-Cl on normalized TRESK outward currents obtained from HEK-293 cells stably transfected with human TRESK .

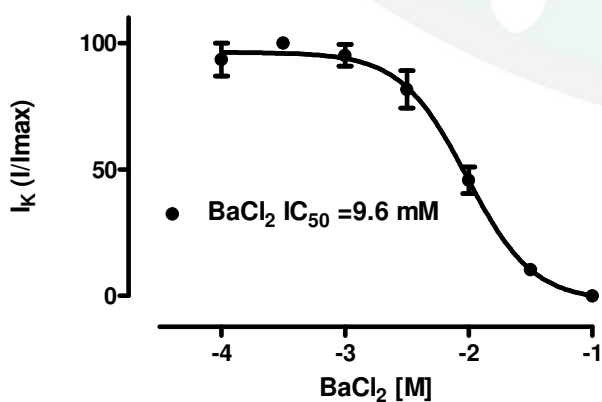

Figure 2: Concentration-dependent effects of BaCl₂ on normalized TRESK outward currents obtained from HEK-293 cells stably transfected with human TRESK .

Further validation data available on request.
